

The North Central New York Conference Disability Team's vision statement:

"The mission of the Conference Committee on Disability Concerns is to advocate on behalf of all persons who live with a disability regardless of age, race, gender or disability. In addition, to raise awareness within the church of the need to breakdown attitudinal and structural barriers and to practice inclusiveness of all members of the body of Christ.

At the first step in striving together toward this vision, it is the feeling of the team that our primary task is the gathering and dissemination of information, as much as possible. This will aid us in accessing our conferences situation with regard to the concerns of this team. We must identify resources needs and prayerfully seek the guidance of the spirit as we continue in this otherwise formidable task.

As a beginning approach to this process, following is a survey regarding various aspects of the relationship between the church and the disabled.

In your responses, please consider those in your community who may be handicapped or otherwise impaired by the following: visual, hearing and mobility impaired.

Please consider this issue and our survey prayerfully. Make as many copies available to as many individuals as possible. If you would like the leadership assistance of a member of the Disability Concerns Team, please e-mail; grego949@aol.com

You may drop the enclosed survey off at our booth or please mail to;
